### Basic Delegate Unit

The LBB 3530 Basic Delegate Unit enables participants to speak, register a request to speak, and listen to the speaker. The microphone stem is extremely flexible, so the microphone can be used by delegates sitting on either side of the unit, thus allowing one unit to serve two delegates. The unit also accommodates two separate headphones, so the speaker can be heard clearly even in situations with excessive background noise. This aesthetically-pleasing unit has a built-in loudspeaker which is muted when the microphone is on to prevent acoustic feedback.
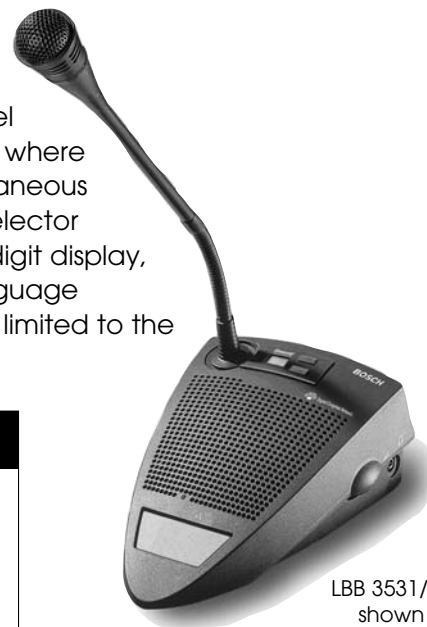

### Features

• Compact, attractive delegate discussion unit
• Microphone with flexible stem, LBB 3530/50 model comes with an extra-long flexible stem
• Built-in loudspeaker
• Two headphone sockets

### Basic Delegate Unit with Channel Selector

The LBB 3531 Basic Delegate Unit with Channel Selector is stylistically identical to the LBB3530 Basic Delegate Discussion Unit, but also includes a built-in language channel selector. This makes it suitable for discussions where more than one language is used and simultaneous interpretations are available. The channel selector includes up and down select keys and a 2-digit display, enabling rapid selection of the required language channel. Channel selection is automatically limited to the number of language channels available.

### Features

• Channel selector for accessing interpretations
• 2-digit channel indicator display
• Two headphone sockets
• Incorporates all functions of LBB 3530/00 Delegate Discussion Unit
• LBB 3531/50 model comes with an extra-long flexible stem microphone

## Basic Chairmain Unit

This stylish, compact chairman unit is equipped with facilities that enable the user to function as the chairman of a discussion. Stylistically identical to the LBB 3530 Basic Delegate Discussion Unit, the LBB 3533 also has a microphone priority button which, when pressed, causes all currently active delegate microphones to be permanently or temporarily switched off, (depending on settings in the CCU) thus allowing the chairman to take control of the meeting.
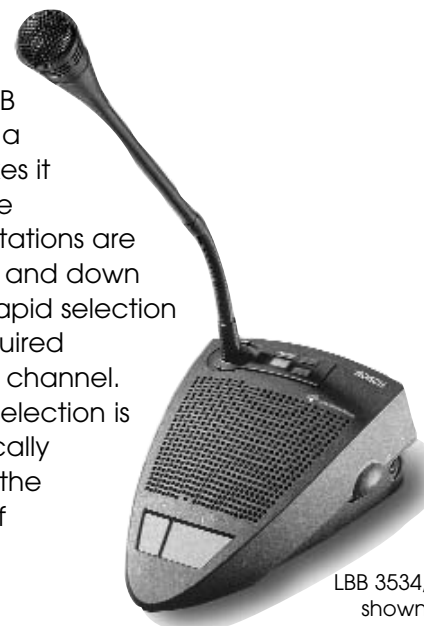

## Features

• Priority key for chairman microphone
• Conference control possibilities
•  Incorporates all functions of LBB 3530/00 Delegate Discussion Unit
• Microphone with flexible stem
• LBB 3533/50 model comes with an extra-long flexible stem microphone

## Basic Chairman Unit with Channel Selector

The LBB 3534 is stylistically identical to the LBB 3533 Basic Chairman Unit, but also includes a built-in language channel selector. This makes it suitable for discussions where more than one language is used and simultaneous interpretations are available. The channel selector includes up and down select keys and a 2-digit display, enabling rapid selection of the required language channel. Channel selection is automatically limited to the number of language channels available.

## Features

• Channel selector for accessing interpretations
• 2-digit channel indicator display
• Two headphone sockets
• Incorporates all functions of LBB 3533/00 Chairman Discussion Unit
• LBB 3534/50 model comes with an extra-long flexible stem microphone
